

Worcestershire's Fair Employment Charter

As a Co-operative County we want to build a fair and prosperous local economy where everyone does their bit and everyone benefits.

We believe that a fair local employment is central to our ambitions for Worcestershire – thriving business with proud and committed staff.

As a fair employer we will

1. Pay a living wage
2. Offer fair contracts and stability of employment
3. Offer access to training and support
4. Support membership of trade unions
5. Enable and encourage employees to 'do their bit' for the County
6. Support local people into work through 'Get Worcestershire Working'.
7. We will help women in the workplace by ensuring employment rights are protected.
